Highlights

- Immersive Lifelike Experience
- Customizable and Flexible
- Superior Interoperability
- Intuitive Apple iPad and iPhone Control
- Breakthrough Pricing

Customizable and Flexible

The Avaya Room System XT Telepresence delivers an immersive telepresence experience tailored to the unique requirements of individual rooms and customer needs. Installed and configured by our worldwide network of expert partners, the XT Telepresence provides a cost-effective and flexible deployment approach with optimal quality in a variety of conditions maintained through powerful calibration and setup tools. Simplifying deployment, the Avaya Room System XT 7100 and Avaya Room System XT 5000 systems can be automatically configured through provisioning codes entered at startup with profiles created via Avaya Equinox/ Meetings Server.

Superior Interoperability

The XT Telepresence combined with the Avaya Equinox/ Meetings Media Server interoperability with select telepresence systems from Lifesize, Polycom and Tandberg as well as with any standards-based video conferencing system for full video, audio and H.239 data collaboration.

Intuitive Apple iPad and iPhone Control

The learning curve for using the XT Telepresence is virtually eliminated with Avaya Collaboration Control application for iOS (Apple® iPad® and iPhone®). First time users can initiate calls, control their XT Telepresence systems and moderate meetings with little training or introduction.

Support Services

Avaya offers a full set of services to help maximize a video investment. Strategic and technical consulting along with deployment and customization services help ensure that video collaboration rollouts are successful and aligned to business requirements.

Avaya support services maximizes up time with software updates, upgrades, remote maintenance and expert repairs.

1. Avaya Collaboration Control is unlocked by the Telepresence license. The software can be downloaded for free from the Apple App Store. iPad, iPhone and device docks are not included.
2. Avaya Collaboration Control for Android™ does not support Avaya XT Telepresence, and has different features with respect to Avaya Collaboration Control for iOS. For this reason, Avaya Vantage™ cannot be used to control Avaya XT Telepresence. Avaya XT Telepresence can be controlled by any iOS-based tablet such as an Apple® iPad® or iPhone®.
